

Letter of Recommendation
for Piotr Kalinowski Teacher of Polish

Warsaw, May 2020

To whom it may concern,

I have taken Polish language lessons with Piotr during the past few months, and I can say that he puts efforts and attention in getting the training / teaching methods adapted to the personal style of the person in front of him. He also provides people with plenty of collaterals, practical suggestions, which are very useful in the process.

Delivering English lessons for many years, clearly he has the teaching methods embedded in his DNA, as well as he is fine observer of one behavior and approaches and provides even coaching and advises on how to overcome an issue / situation. He is structured, flexible, punctual and not the least a nice and kind person to interact with.

The only thing though is that he cannot do miracles☺, so one needs to have the right level of commitment to learn the language, doing homework, etc.

Thank you for your attention and wish you all the success in pursuing Polish lessons classes.

All the best!
